Materials

- EN-AC-51100 AG3 cast aluminium structure with anodised finish.
- 130 x 25 mm tropical wood slats with FSC 100% certification, protected with a single coat of oil.
- Zinc-plated steel bolts.
- A2 stainless steel hardware.

Installation and maintenance

- Installed with two bolts per support structure, inserted in pre-drilled holes in the pavement, filled with epoxy resin, quick-setting cement or similar.
- The element is delivered disassembled into two components: the structure and the slats.
- Installation and assembly instructions, hardware and fixing bolts or plugs included.
- No maintenance required, except to preserve the original colour of the wood.
