## Product description

### Certificates

### Finishes

#### Structure

AG3 anodised aluminium

#### Slats

FSC 100% Tropical

Anodised aluminium

The finishes shown are purely indicative. Suitable for coastal areas.

### Materials

- EN-AC-51100 AG3 cast aluminium structure with anodised finish.
- Seat and back made of 90 x 30 mm slats of tropical wood, with FSC 100% certification, with a single coat of oil protection, or 6063-T5 extruded aluminium, with an anodised finish.
- Zinc-plated steel bolts.
- A2 stainless steel hardware.

### Installation and maintenance

- Installed with two M10 x 120 bolts per support structure, inserted in holes made in the pavement beforehand, and filled in with epoxy resin, quick-setting cement or similar.
- The element is delivered as two separate components: the structure and the slats.
- Installation and assembly instructions, hardware and bolts included.
- Does not require any maintenance, except to preserve the original colour of the wood.

### Regulations

- FSC-STD-40-004 (licence no.: FSC CO09370)
- NF P99-610
- UNE 41510
- UNE-EN 581
- UNE-EN 12727
- UNE-EN ISO 7599
- UNE-EN ISO 9227

Weight kg [lb]

0.60 m Bench

- Aluminium: 20 [44.1]
- Tropical wood: 23 [50.7]

1.75 m Bench

- Aluminium: 34 [75]
- Tropical wood: 43 [94.8]

3.00 m Bench

- Aluminium: 49 [108]
- Tropical wood: 73 [160.9]

Approximate weight without packaging.
