Finishes

Support

Polished gloss steel

Rail

Mirror polished steel

The finishes shown are purely indicative. Suitable for coastal areas.

Materials

- Support made from AISI304 stainless steel plates with recessed 125 x 125 mm base with a polished gloss finish.
- Handrail made of Ø84 x 2 mm tube of the same material, with a mirror polished finish.
- A2 stainless steel hardware.

Installation and maintenance

- Installed with fixing studs for each support structure, inserted in holes made in the pavement beforehand.
- The element is delivered as two separate components: the structure and the handrail.
- Installation and assembly instructions, hardware and fixing studs included.
- It does not require any maintenance.

Regulations

- EN 10088
- ISO 1127
- UNE 41510
- UNE-EN 1090
- UNE-EN 12329

Weight kg [lb]

- Initial module: 33 [72.8]
- Alignment module with beam: 38 [83.8]
- Alignment module with beam: 24 [52.9]
