Product description

Certificates

Finishes

Structure

AG3 anodised aluminium

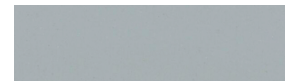

Slats

FSC 100% Tropical

100% PEFC Pine

Anodised aluminium

The finishes shown are purely indicative. Suitable for coastal areas.

Materials

- EN-AC-51100 AG3 cast aluminium structure with anodised finish.
- Seat and back made of 30 mm-thick slats of heat-treated European pine wood, with 100% PEFC certification, or tropical wood, with FSC 100% certification, with a single coat of oil protection, or 6063-T5 extruded aluminium, with an anodised finish.
- Zinc-plated steel bolts.
- A2 stainless steel hardware.

Installation and maintenance

- Installed with two M10 x 120 bolts per support structure, inserted in holes made in the pavement beforehand, and filled in with epoxy resin, quick-setting cement or similar.
- The wooden version is supplied assembled and packaged; the aluminium version is supplied as two separate components.
- Installation and assembly instructions and bolts included.
- Does not require any maintenance, except to preserve the original colour of the wood.

Regulations
