

Description

We champion the comfort of people, and the absence of light pollution. Guaranteeing lighting comfort, with elements to control and partially block glare, is one of the main purposes of the new city, designed for people. The 0% ULOR shade also eliminates luminous flux in the top half.

Materials

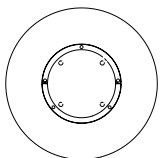

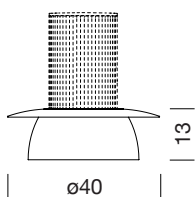

Diffuser shade made from 4 mm thermoformed opal optical PMMA methacrylate. 0% ULOR shade made from 1.2 mm thick 1050-0 aluminum, thermal coating finish with C3 anti-corrosive protection. AISI304 stainless steel attachment parts, grit blasted finish. A2 stainless steel screws.

Installation

Attach the accessory to the floodlight and then to the support. The accessory only modifies asymmetric layouts.
