

Rambla Litterbin

Guillermo Bertólez, Javier Ferrándiz. 1993

Urbidermis

Materials

Liner made of hot-dip galvanised steel plate bucket painted. Structure composed of two L-shaped profiles — 40 x 40 mm (42 l) or 45 x 45 mm (66 l, 82 l) — welded to a circular hot-dip galvanised steel plate. Includes rings for easy bag placement. Please enquire about integrating the ashtray option.

Installation and maintenance

The element is installed and levelled by means of three threaded rod legs inserted into holes bored into the pavement, filled with epoxy resin, quick-dry cement or similar. The element is supplied assembled and packaged. Instructions included. No maintenance required, except for cleaning and regular emptying.
